Construction Vendor Taxonomy & Procurement Platform Model

Recommended Major Vendor Groups

1. Construction Trades

• Site Preparation & Earthworks
• Demolition
• Foundations
• Concrete & Reinforced Concrete
• Masonry
• Structural Steel
• Timber Structures
• Roofing
• Waterproofing
• Facade
• Windows & Glazing
• Doors & Gates
• Drywall & Partitions
• Ceilings
• Screed
• Flooring
• Tiling
• Painting & Decorating
• Landscaping

2. MEP / Building Services

• Electrical
• Lighting
• Plumbing
• Sanitary
• Heating
• Cooling / Air Conditioning
• Ventilation
• Refrigeration
• Fire Protection
• Building Automation
• Smart Building
• Solar / PV
• Energy Systems

3. Civil & Infrastructure

• Roads
• Bridges
• Tunnels
• Utilities
• Water & Sewer
• Drainage
• Rail
• Traffic Systems
• Infrastructure Construction

4. Materials & Products

• Concrete & Cement
• Steel
• Timber
• Bricks & Blocks
• Insulation
• Drywall
• Roofing Materials
• Facade Materials
• Glass
• Tiles
• Flooring
• Paint & Coatings
• Construction Chemicals
• Fasteners & Hardware
• Electrical / MEP Materials

5. Machinery & Equipment

• Excavators
• Loaders
• Cranes
• Forklifts
• Concrete Equipment
• Compaction Equipment
• Generators
• Compressors
• Scaffolding
• Site Equipment
• Equipment Rental

6. Professional & Engineering Services

• Architecture
• Structural Engineering
• Civil Engineering
• MEP Engineering
• Geotechnical Engineering
• Surveying
• Quantity Surveying
• Cost Consulting
• Project Management
• Construction Management
• Site Supervision
• Inspection & Testing
• Certification

7. Specialized Systems

• Elevators & Escalators
• Access Control
• CCTV & Security
• Fire Alarm
• Building Management Systems
• Parking Systems
• Acoustic Systems

• Solar
• EV Charging
• Renewable Energy

8. Site & Temporary Services

• Site Containers
• Temporary Electricity
• Temporary Water
• Site Security
• Site Facilities
• Waste Management
• Cleaning
• Logistics
• Transportation
• Material Handling

Recommended Data Model

Vendor
• Company
• Vendor Types (Contractor, Subcontractor, Manufacturer, Distributor, Supplier, Rental Company, Consultant)
• Categories
• Capabilities
• Products
• Services
• Certifications
• Regions
• Project Types
• Experience

Key Design Principle

Keep these taxonomies separate:
1. Vendor Category – What area the company operates in.
2. Capability / Trade – What the company can actually do.
3. Product / Material – What the company can supply.

This separation enables accurate tender-to-vendor matching and future AI-driven procurement recommendations.
